

ClearPayments 101

Let Clearco be your payment solution so you are able to choose how and when to pay your bills & invoices. ClearPayments is Clearco's newest product to make the lives of founders easier. Running a business is complicated enough, let us make paying bills flexible, easy and hassle free.

How does it work?

If you've used [Vendor Pay](#) before you'll be familiar with how you're able to add Vendors and send payments using your Clearco funds.

With ClearPay, now you'll be able to simply upload the invoice you're looking to pay, select the payment date and payment method. We will pay your vendor, and you get to pay us using the method most convenient to you.

What payment methods are available to me?

There are 3 options to choose from:

1. Bank Transfer (Free)

Send payments for free directly from your bank account that is connected to your Clearco account. There are no additional fees and no hidden costs. We'll pay your vendor exactly how they want; ACH, international wire or cheque.

2. Credit Card (2.9% fee)

Do you have a bill/invoice that doesn't accept credit card payments but you want to use your favorite credit card to collect points and defer payments for 30 days. You will now be able to select this payment method for a 2.9% fee.

3. Your Clearco Funds

There is no change here, you'll be able to use your Clearco funds for eligible payments. Now, instead of inputting the vendor details, you just need to upload the invoice and we'll take care of the rest!

How do I pay?

Log in to your dashboard, choose payment method, upload invoice. For more details about using ClearPayments, check out [this article](#).

Can I submit any type of bill/invoice?

You can submit any type of invoice but please be mindful when paying with your Clearco funds, where the spend should match with the type of advance you have received, (ie, you cannot pay a marketing vendor with your inventory funds).

Please keep in mind that each invoice is subject to review before payment.
